

## Candles With A Cosmic Nudge

**We know a thing or two about creating a space with intention and good vibes - meet Emare Aroma Angel Number Candles. Where clean aesthetic meets "flow of the universe".**

Hailing from Kelowna, British Columbia, this Canadian brand, founded by Shona Gagnon and Darren Loreth in 2022, specializes in hand-poured, eco-friendly candles made with locally sourced materials from the Okanagan. The Okanagan is a beautiful lake region of B.C. known for its wineries and fruit orchards. These locally inspired candles are created to burn clean with a warm glow to invoke intentional moments and lasting memories.

Not only are each candle jar cut, cleaned, and polished from upcycled wine bottles (a vibe all its own), but they are also adorned with an angel number that will guide you to pause and reflect. These candles have a modern feel yet offer coziness, whether you are entertaining or creating chill time for one.

## What are Angel Numbers?

Angel numbers are repeating numerical sequences (like 111 or 222) believed in numerology to be messages from the spiritual universe, angels, or ancestors. At the same time, they can appear anywhere, why not a beautifully scented candle that reassures you that you are on the right path?

**Each candle features a unique label that tells a story. Yours.**

- Made with 100% Vegan Soy Wax - burns clean and lasts long
- Eco-Friendly Cotton Wicks - free of toxins. **Translation:** no black smoke, no weird smells, just a consciously clear burn
- Non-Toxic, Feel-Good Scents - only fragrance oils that are **phthalate- and paraben-free**
- **All the good energy with none of the bad stuff**

**Allow Emare Aroma candles to "nudge" you to stop and shift into a higher alignment. Maybe something greater is calling you, even if it is a chocolate chip cookie. We truly want you to take breaks from your daily routines to focus on your own self-expression.**

**Embrace the Flickering Flow**
