

FAT CHANG HOT SAUCE

Bottled in small batches by a spicy family of pepper farmers.

PEPPERS WITH DESTINY

Every bottle of Fat Chang begins in our very own Chang Family Farms.

For years, we've been perfecting our crops for wholesale, retail, and food service — now, we're coming straight to you with root-to-bottle goodness in every drop.

We grow them with the right balance of sunlight, water, and pure organic methods. What you experience is not merely a drop of hot sauce, but a tasteful legacy of generations!

OUR SAUCES

Coming in 2023: Abuela Sauces, PaChanga BBQ & Flakes and our Chubby Chang Kids sauces.

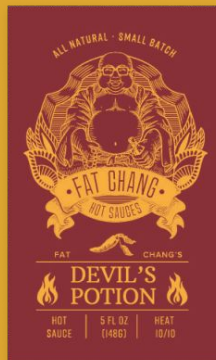

Our **Serpent Goddess** is a tart, sweet-heat beauty featuring Cayenne and Peri Peri peppers. Easy on the taste buds and delectable with seafood

Face the **Lost Warrior**: a luscious blend of Habanero peppers with sweet, tangy notes of lime, agave nectar, and coriander. Not too spicy and definitely awesome.

Our all-time bestseller is a real OG. **The Original** features a smoky essence with a well-balanced heat of Cayenne Peppers and Habaneros, plus sweet, sweet molasses.

It's not a dream: it's our **Wicked Nightmare**. Bringing together our Ghost and Cayenne peppers, this deep, rich and smoky blend is finished with our own Peri Chile sauce for the craziest texture.

This will hurt a bit, but you'll be more shocked by how good it tastes. Our **Devil's Potion** is a fiery blend with deep, rich flavors—featuring our very own Carolina Reaper peppers.

FOOD. FLAVOR. FAMILY.

Guided by our Cuban-Chinese roots, our concoctions are as well-traveled as our family, with influences from Spain, Africa, the Caribbean, Italy, America, and China. But no matter where we went, food was always our shared language. That's why our sauces taste so damn good with everything.

“But we saw room for something different, something with values, sustainability, and real heat without all the additives. Honestly, I'll say it, when a hot pepper is as good as ours, it's enough.” -Mark Chang

GIVING BACK TO OUR COMMUNITY.

Nothing inspires us more than working with students and creating excitement about food and nature. We have worked with multiple schools - from Elementary to High Schools - creating learning journeys, workshops, as well as designing & teaching farming curriculums. Most of our school projects start with creating a food garden (with participation from the students) all the way to packing and selling produce at the school's farmers market.

To date, we have reached out and worked with 20+ schools. Here are some photos of schools we have worked with to build gardens and create farming curriculums. RWG inspires the youth of today to lead healthy and ambitious lives through mentorship and hands-on education in urban farming, sustainability, and nutrition. <https://www.changfamilyfarms.com/copy-of-urban-schoolyard>
