# Wide range of instruments

Across up to 4,000 instruments across global markets

## FOREX

Forex is the most liquid and traded market, averaging a daily trading volume of USD 7.5 trillion in 2022, making it a go-to for day traders.

**Trade EUR/USD, GBP/CAD, USD/ZAR, and more.**

## INDICES

Indices trading is popular for traders looking to diversify their portfolio and lessen their risk exposure.

**Trade SPX500, UK 100, China 50, and more.**

## STOCKS

Stock trading with ThinkMarkets allows traders to speculate on the price movements of global stocks without the need to own shares.

**Trade MSFT, TSLA, META, and more.**

## ETFs

Trading ETFs expose the trader's portfolio to a diverse range of instruments from other markets.

**Trade Vanguard SP 500, New Plat, BetaShares Australia 200, and more.**

## COMMODITIES

Commodities trading involves natural resources that are always in demand, such as precious metals and energy.

**Trade gold, Brent crude oil, natural gas and more.**

# Excellent trading conditions

As a client-first broker, ThinkMarkets' main priority is to provide our clients with a trading environment designed to help maximise their profits and elevate the trading journey. Our industry-leading trading conditions are a major factor to why we are one of the leading trading platforms of choice across the globe.

## Low trading fees

---

Potentially maximise your profits with lower than industry average trading fees. Trade nonstop with zero commission on thousands of instruments.

## Flexible lot sizes

---

Manage your risk according to your trading style and strategy with the flexibility to open trades as little as 0.01 lot. Tailor your trading to your preferences.

## Lightning-fast execution

---

Seize market opportunities in real time with instant execution and 99.9% fill rates on your trades.

## Tight spreads

---

Enjoy lower trading costs with spreads starting from 0.4 points on SPX500 and \$0.19 on gold.

# ThinkTrader

ThinkTrader is our proprietary, award-winning trading platform. Packed in an intuitive app available on mobile, web, and desktop, ThinkTrader allows our traders to place trades on the global markets wherever, whenever.

## Technical analysis tools

ThinkTrader comes equipped with an extensive set of technical analysis tools designed to help traders build their trading strategies.

- 20 chart types
- 120 technical indicators
- 50 drawing tools
- 200 cloud-based alerts

## Trade from TradingView

Benefit from ThinkMarkets' superior trading conditions and open trades directly from TradingView's platforms. Traders can now connect their ThinkTrader accounts to TradingView and access an extensive suite of technical analysis tools.

## Signal Centre

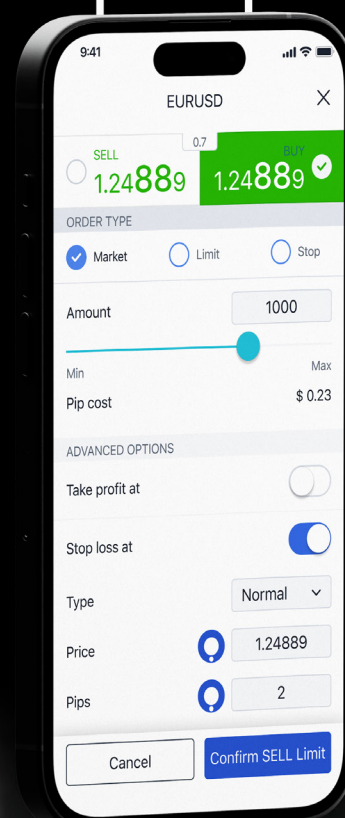

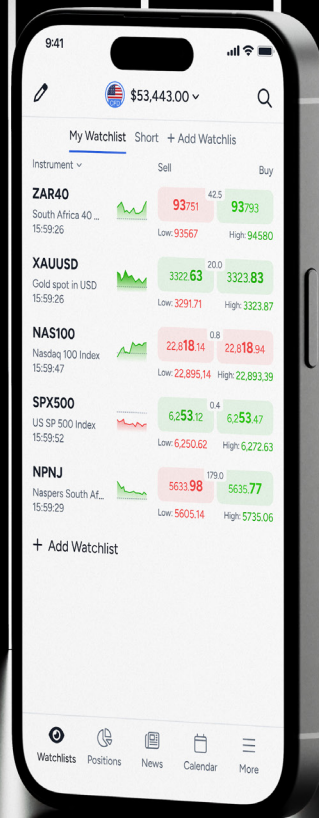

Signal Centre is an FCA-regulated analytical tool that sends traders up to 50 daily trading signals every day, complete with entry, exit, stop loss, and take profit levels.

## Traders' Gym

Traders' Gym is a ThinkMarkets exclusive backtesting tool which traders can use to test their strategies on real life historical data.

## Islamic account

Trade according to Sharia law, with no interest on overnight trades. Available on the ThinkTrader platform.

# Around-the-clock support
