### Current market overview

Week-over-week percentage movements\*

 Bitcoin	-9.50%	 Ethereum	-14.84%
 Cardano	-15.16%	 Solana	-17.60%
 Ripple	-14.89%	 Litecoin	-14.53%
 Dogecoin	-16.80%	 Shiba Inu	-11.50%

### What's behind the decline?

This downturn is driven by multiple factors, including global economic uncertainties and recent security incidents, such as the \$1.5 billion hack of the Bybit exchange.

### What lies ahead?

Despite the current decline, analysts remain bullish on crypto's long-term prospects. Many suggest that favourable regulatory changes and increased institutional adoption could propel Bitcoin's value to between \$120,000 and \$250,000 by the end of the year.
