

# THE SPA EXPERIENCE RETREAT RELAXATION

Hydrotherapy Meets Chromotherapy

## YOU CAN ENJOY THE LUXURY of a day spa right at home

You can enjoy the luxury of a day spa right at home. Whether you opt for whirlpool bathtubs equipped with LED multi-color bath lights or you prefer a shower with infinitely precise jet treatment, healing colors with adjustable light speed, and a waterproof wall mount remote control included... Take off and let yourself float into your new world: the bathroom of your dreams.

Starck2 Lavatory by Duravit and Starck Single hole mixer by Axor

## CHROMOTHERAPY'S purpose

Chromotherapy's purpose is to create changes in our mental and physical state using multi-color light systems. These changes greatly influence the condition of our emotions, balancing our bodies' energies, and restoring overall health. Chromotherapy can brighten our mood and lift your spirit. Add aromatherapy to the mix; aromatherapy begins with dilutions and fragrances which will bring you a crescendo of sensations. You can now just immerse yourself into the complete spa experience in the comfort of your own home.

## To complete the spa experience

To complete the spa experience, plush white towels, white marble combined with the richness of walnut or blond wood, and your bathroom may just become your favorite room

All-white marble bathrooms with TARA series DORNEBRACHT shower
