How to Use Tide Pods

Step-By-Step

Step 1: Determine the size of your load of laundry

- **Regular/Medium** – Drum is about ½ full
- **Large** – Drum is about ¾ full
- **Extra Large** – Drum is 100% full (but make sure not to overload or tightly pack your clothes!)

Step 2: Figure out the right dosage

- **Regular/Medium** – 1 Pac
- **Large** – 2 Pacs
- **Extra Large** – 2-3 Pacs

Step 3: Remove laundry pacs with dry hands from the box

Step 4: Place the pac(s) in the back or bottom of the drum before adding clothes

Step 5: Choose the appropriate wash cycle on your machine

Step 6: Close the container and keep it out of reach of children

Helpful Tip:

If you're frequently washing heavily soiled or large loads of laundry, consider using Tide POWER PODS®. They offer better stain removal and cleaning power.
