

How do you know you're not getting enough from your current advisory team? Here's why many ag businesses make a change:

- Inefficient processes
- Poor communication
- Lack of ag-specific expertise

You deserve a proactive team that truly understands agriculture. Our experts have walked in your boots, and deliver the level of attention, resources, and solutions you need – without having to ask.

Trusted by the Georgia Fruit & Vegetable Growers Association

As dedicated supporters and exhibitors of the Southeast Regional Fruit & Vegetable Conference, we thoroughly enjoyed connecting with many of you at our booth during the annual conference in January.

Backed by over 90 years of food and ag experience, we provide comprehensive advisory, tax, and accounting services tailored to the unique needs of growers, supply chain vendors, and manufacturers.

We hope you had the chance to attend our session, 'Creating a Generational Roadmap,' and If we didn't get a chance to meet, here's a brief overview of how we can support your operation.

Advisory Services That Move You Forward

- **Farm Business Financial Management:** Take control of your farm's financials.
- **USDA Farm Program Services:** Navigate programs and policies with confidence.
- **Land Advisory:** Improve, conserve, and protect your land.
- **Tax Planning & Financial Strategy:** Maximize savings and plan with long-term growth in mind.
- **Next Generation Plans:** Estate and succession planning for your business, family, and legacy.
- **Farm Technology:** Streamline operations with an AI-driven accounts payable solution.
