The Nighthawks are BACK. Evolution's international volleyball tournament is officially on for summer 2026 in Xuzhou, Jiangsu Province, China. Our 2024 tournament, Evo-One, was such an astounding success both here in the US and in China that we knew we had to do it again - bigger, better and with even more swagger in Evo-Two.

We are looking for clothing sponsors! Want to take your brand across the Pacific to raving fans in China and in massive promotions in the US? Contact us today.

Good surprises are our favorite. There has been massive interest in our documentary globally since we released to the public last week on YouTube. What does a sports documentary have to do with LVL? Well, nothing. But it speaks to the way we do everything - set a goal and make it happen. Why? Because we can.

Check out "Sport Knows No Boundaries: The Evo-One Story" on YouTube: <https://lnkd.in/eC3jEQB4>

Evo-Two player tryouts are this weekend, and we are beyond excited to choose the next generation of Nighthawks! This year's tournament is going to be bigger (3 stadiums), better (we've got some experience under our belts this time) and bolder (because the swag only grows) this year as we head to China to bring some American volleyball culture to our Chinese friends.

Tryouts in Atlanta brought together players, coaches and organizers from all over the globe - a truly international experience starting right here on U.S. soil. And we are stoked to announce the 2026 Nighthawks lineup. Some new faces, some OGs, and a whoooooole lot of talent to represent the U.S. in China. Congrats to [Marcellus O.](#), [Colt Fuller](#), [Jaxon Clark](#) and all our 2026 Nighthawks!
