At Evolution, our branding is central to what we do. So yes, we will have the coolest product photos in the industry. We'll have spooky welcome pages (<https://inkd.in/eQ6T2daW>) just because they're awesome. Everything we do, we do with attitude, and that's one of the reasons our brand is so recognizable by clients all across the globe.

Boring picture, exciting news. Our first shipment of LVL just landed in our brand-new warehouse in Dubai. With this new warehouse, we'll be able to serve our Middle East clients faster than ever before, with product on the ground without the wait. Evolution has experienced explosive growth over the last two years, and this very unphotogenic photo is part of the proof. We are so grateful to our incredible clients, salespeople, colleagues and network for helping make it all happen. Today, Dubai. Tomorrow, total world domination.

Tired of being hogtied by "what's always been done?" Throwing caution to the wind and branding our company in a way that's categorically "us" (no trees, no forests.) has paid off big time in brand recognition and bragging rights. Don't be afraid - it's ok to join the Dark Side. We have dragons.

What does freedom really taste like in this industry?

Buying only what you need - no strings attached.

Not giving rain OR termites a second thought.

With Evolution Exterior UC3B LVL, you can build what your customers want, anywhere, anytime ...and YOU are in charge of how much you buy.

(It even comes in post sizes)

Why? Because Evolution is 100% independent.

We're for builders, not bureaucracy.

Is there anything LVL can't do? Evolution has been asked to custom-make LVL jump poles a horseback riding arena that perform longer and better than what they are currently using. LVL jump poles are resistant to the constant water that must be misted in the arena to maintain the sand, which rots their current jump poles quickly. Being an engineered product, the new LVL jump poles will not twist or warp like solid timber. Evolution is always up for a new challenge. Think you've got a problem LVL might be able to solve? Contact us today.

It's always wildfire season somewhere. No matter where you build, Evolution's Fire-Rated LVL provides fire protection that offers precious extra minutes for residents to escape alongside their families and pets. Every second counts in an evacuation - and our fire-rated LVL adds time that can save lives. We don't just design for strength. We design for life.
