

Meet Our New AI Chatbot, UKG Ready Assistant!

We're excited to introduce **UKG Ready Assistant**, an AI chatbot designed by [Employee] to help you get quick answers about our new HR system, UKG Ready.

By now, you should have completed your LearnUpon training and received your Single Sign-On link, but once the platform goes live on October 26, you may still have questions. That's where UKG Ready Assistant comes in.

Starting this week, you'll be able to access UKG Ready Assistant directly in your Teams app or via the Microsoft Copilot app.

If you need help navigating the site or finding a feature, just ask the Assistant for instant support.

Please remember not to share any personal information with UKG Ready Assistant.

For additional support, you can always reach out to the HR team at [Email].

We hope UKG Ready Assistant helps you make a more seamless transition to the new system!
