About the Webinar:

This case study explores a high-net-worth divorce involving financial deception, focusing on hidden assets, unreported income, lifestyle inconsistencies, and an undervalued family business. Attendees will learn to identify discrepancies, expose fraud, and uncover the true financial picture. It provides practical strategies and tools for addressing complex financial challenges and ensuring a fair resolution.

What you will learn:

- Learn how to have the difficult conversations surrounding suspicion of fraud and the need for an investigation
- Know what documents and discovery are needed to aid in the investigation
- Red flags in the financial numbers and if they can be relied upon
- Techniques to look for hidden assets and income sources of the business
- Preparing a report which will identify, contradict and verify your conclusion
